Woodberry Kitchen is still in its development and construction phase. The concept is locally sourced, fresh, seasonal ingredients in a café style setting. The space includes an open kitchen, prep kitchen, private dining space and mezzanine level. Not being open yet, it is difficult to say what the volume of business will be. The waste is being minimized from the onset by environmentally friendly procurement practices. The following details services provided to the client:

1. Create training and information materials
2. Recycling and compost
 - i. Recycle all plastic, glass, metal and paper
 - ii. Compost 100% of plate residuals
 - iii. Compost 100% of kitchen prep residuals
3. Establish vendor relations with hauling companies
 - a. Establish frequency of pick-up
 - b. Establish internal logistics with regard to number and placement recycling and composting receptacle
